Healing from Hidden Abuse: Survivor Roadmap

Author: Shannon Thomas / Esi's Corner Edition | Category: Psychological Abuse & Recovery

Overview & Sanctuary Summary:
A compassionate journey through the stages of recovery from psychological and covert relationship abuse.

Covert psychological abuse is insidious because it operates through gaslighting, intermittent reinforcement, and public charm.

The 6 Stages of Recovery:

1. Despair: Feeling shattered, confused, and questioning your own sanity.

2. Educating Yourself: Learning the vocabulary (gaslighting, flying monkeys, narcissism, cognitive dissonance).

3. Awakening: Seeing the pattern with clear eyes without making excuses.

4. Boundaries: Going No-Contact or Low-Contact.

5. Restoration: Rebuilding your self-trust, spiritual altar, and physical health.

6. Maintenance: Celebrating freedom and mentoring fellow survivors.
