The Body Keeps the Score: Somatic Healing Summary

Author: Bessel van der Kolk, M.D. (Sanctuary Study Guide) | Category: Trauma & Somatic Recovery

Overview & Sanctuary Summary:
Essential guide on trauma, somatic memory, brain science, and the path to reclaiming the body and spirit.

Trauma is not just an event that took place in the past; it is the imprint left on sensory experience, posture, brain function, and immune system.

Pathways to Somatic Liberation:

• The Vagus Nerve & Nervous System: Moving out of chronic fight-or-flight through conscious rhythmic breathing and singing bowl resonance.

• Restoring Agency: Reconnecting safely with physical sensations without panic.

• Communal Healing: Healing happens in safe, non-judgmental community where our stories are witnessed and validated.
